

Coronavirus Update

8/6/2020

At this time, our physical practice remains closed for in-person therapy during the public health emergency in Washington, DC in order to protect the health of our entire community.

We are continuing to serve current and new clients using a robust telehealth platform for psychotherapy in order to provide uninterrupted treatment while practicing the social distancing required by this emergency.

If you are seeking psychotherapy for an adult, child, adolescent, couple, or family, please contact Lenni Snyder, LPC at 301-807-8116.

Our DBT program and EASE group are also operating via telehealth, and we continue to accept applications on a rolling basis. Applications can be completed and securely submitted through our website (<http://www.wakekendall.com/dbt/>).

We are scheduling a limited number of in-person testing appointments. There is a waitlist for neuropsychological evaluations.
